

Encounter India

Summer Program

Experience the fascination of India in a unique and exciting way with the Mahindra United World College of India (MUWCI) Encounter India program! This innovative program offers young people (15 to 18 years) a chance to learn about India and to discover positive approaches to global problem solving whilst acting in the local rural environment.

- ★ Work with Non Government Organizations
- ★ Travel in India
- ★ Learn about the developmental complexities facing India
- ★ Experience the diverse culture, food, people and myriad hues of this remarkable country

The first twelve days take place on the MUWCI campus, set amongst the hills in the beauty of a stunning biodiversity nature reserve. Hands-on activities, skill building workshops and lively discussions allow students to explore the socio-economic, political and cultural frameworks of the Indian subcontinent.

With this understanding, students have opportunities to engage with and serve local communities and the people whose cultures, life struggles and expectations are the daily reality of rural India. During the last nine days of the program students travel through India to visit some of the most spectacular sites including Agra, Dharamsala and Jodhpur.

Program Fee: ₹. 150,000.00/-

This includes all meals, lodging, entrance fees to excursion sites & transportation within India. (It does not include cost of airfare, visa & souvenirs). Limited scholarships available.

Program Dates:

10th July – 31st July

Application Deadline:

15th April

All enquiries and applications to be emailed to development@muwci.net
